NAZI WAR CRIMES DISCLOSURE ACT

Declassified and Approved for Release
by the Central Intelligence Agency
Date: 2003 2005

Subject: Xhafer DEVA

Xhafer DEVA was Minister of Interior in Albania during the German occupation. He had studied in Germany and early reports reveal he has always been pro-German and violently anti-Communist and anti-Tito. He led in the fight against Tito's partisans in the 1942-44 period. From the Kosovo region of Albania he is recognized as a leader of the Albanian Kosovo groups. He aligns himself with the independent and legality bloc of the Albanian political parties in exile, but belongs to no party. A leader of the Second League of Prizren in Rome, subject has always maintained that the NCFE is weak and does not represent the Albanians. While this view is also shared by some of his political opponents, his attitude is no doubt influenced by the fact that he has never been accepted for membership in the NCFE.

DEVA has been described as a man of uncompromising personal honor and a single-minded anti-communist nationalist motivated by purely patriotic considerations. ^{There have been} allegations of German and present Italian collaboration ~~if based on fact~~ on DEVA's part.

The League of Prizren was
the only Albanian organization
to fight against all slave, especially
the Serbs.

If these allegations are facts it can be assumed that as a realist he acts as he sees best for the welfare of his fatherland. He has acted as an operational contact for joint American/Italian ops. Is not regarded as an agent as does not accept monetary payment from any ^{one for} service rendered in the intelligence field, will not submit to control of his freedom and cannot be persuaded to audit info reports unless he himself feels that his doing so will serve a useful anti-Communist (or pro-Kassava) purpose.
